About planit

We are planit, an exceedingly efficient, supreme quality, travel management company.

We understand that travelling can be stressful, so we work hard to provide you with a smoother journey. Your journey with Planit starts when we receive the travel request and ends when the traveller arrives at their final destination.

Our exceedingly efficient team is with you every step of the way, serving as a safety net if something goes wrong at any point.

Creating Corporate Travel Since 1996.

Our history

Planit Travel Services was setup in 1996, building on the work of Charles Stivala, who spent most of his life assisting clients both in Malta and North Africa.

Back then, it was simply a transportation company, but over 4 decades, Planit grew into a fully-fledged travel management company, offering an array of services to companies worldwide and employing more than 30 people.

Planit is now managed by siblings Aaron and Elexia Stivala, who spent their childhood immersed in the family business.

Keeping a professional ethos mixed with a passion for technology, they steered the company forward into new territories, honouring their father's legacy.

A global alert system keeps you notified about any incidents occurring in places where your team is travelling.
